ORDINARY STEEL wire mesh

galvanized woven & welded hardware cloth

Mesh size:

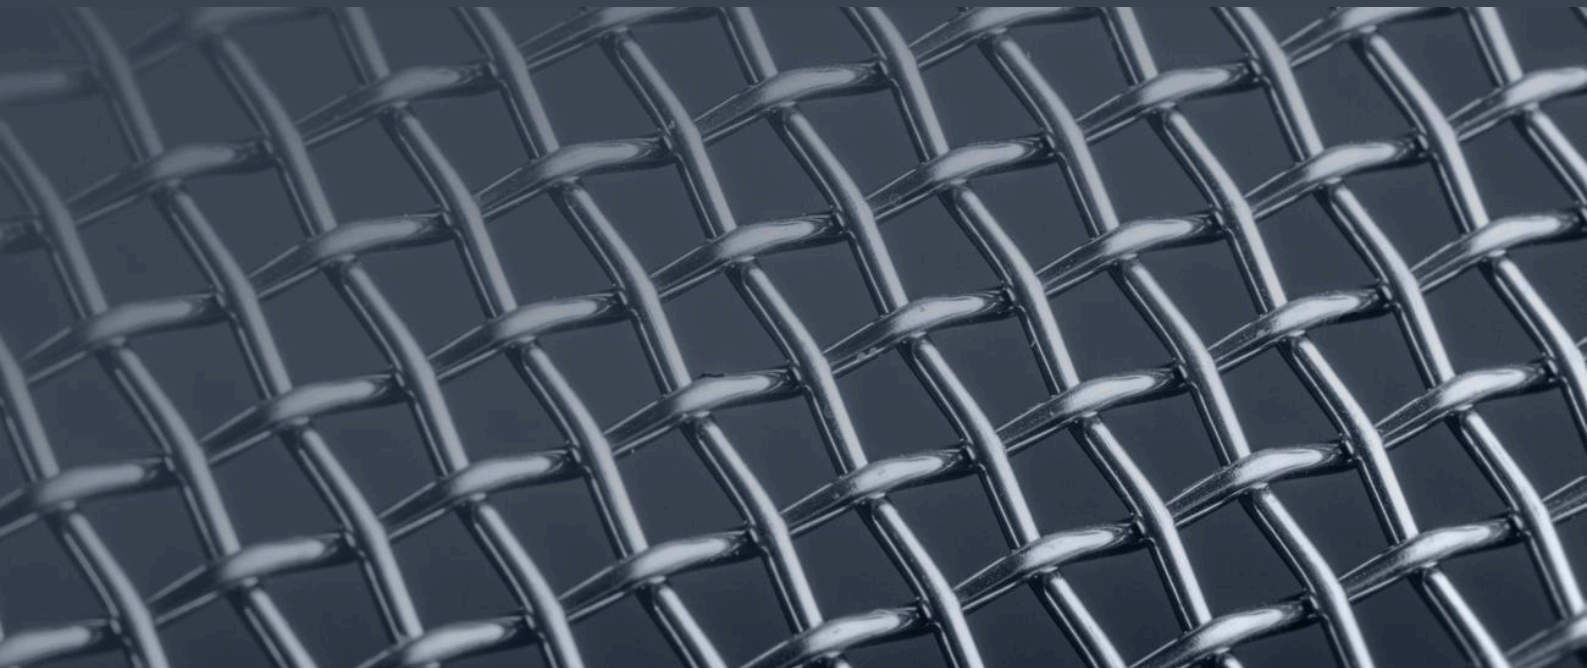

0.5mm - 20.00mm

Types of fluted meshes:

Type I, Type III, Type V

Material:

uncoated or galvanized low-carbon steel wire
(hot-dip galvanizing before mesh production)

ORDINARY STEEL wire mesh

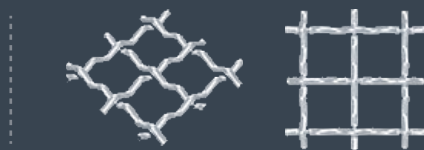

galvanized woven & welded hardware cloth

	Aperture mm	Wire diameter mm	weight of 1 sq.m mesh kg
Wire mesh 0,5x0,3 low carbon	0,5	0,3	1,43
Wire mesh 0,63x0,4 low carbon	0,63	0,4	1,97
Wire mesh 2x1 low carbon galvanized	2	1	4,23
Crimped wire mesh 5x0,7 galvanized	5	0,7	1,14
Wire mesh 5x1 galvanized	5	1	2,12
Wire mesh 5x1,6 low carbon galvanized	5	1,6	5,14
Wire mesh 5x2 low carbon galvanized	5	2	7,58
Wire mesh 6x2 low carbon galvanized	6	2	6,63
Wire mesh 8x1 low carbon galvanized	8	1	1,47
Wire mesh 8x1,6 low carbon galvanized	8	1,6	3,54
Crimped wire mesh 10x1 galvanized	10	1	1,21
Crimped wire mesh 10x1,5 galvanized	10	1,5	2,59
Crimped wire mesh 11x2 galvanized	11	2	4,08
Crimped wire mesh 12x1,2 galvanized	12	1,2	1,45
Crimped wire mesh 12x2 galvanized	12	2	3,79
Crimped wire mesh 15x1,5 galvanized	15	1,5	1,81
Crimped wire mesh 16x1,6 galvanized	16	1,6	1,93
Crimped wire mesh 20x1,5 galvanized	20	1,5	1,39
Crimped wire mesh 20x2 galvanized	20	2	2,41

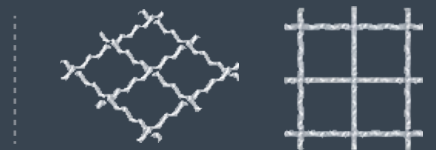

Model I

Model III

Model V

Application areas:

- for fencing, shielding, reinforcement
- for thermal insulation of industrial equipment
- for sieving and separating bulk materials by particle size, separation, control of geometric particle dimensions, and other purposes.

Delivery form: rolls with a width of 1000 mm. Custom rolls of any width up to 1300 and 2000 mm are possible. The standard roll length is 5-10 running meters.
